NEW NEIGHBORHOOD GUIDE FOR NYC TOURISTS PUBLISHED

Above is a directory of the most popular venues in each neighborhood in Manhattan. Created by Roy Auh, this directory was designed primarily for owners of bed-and-breakfasts hosting budget travelers that want to show their customers what their respective neighborhoods offer. The owners of bed-and-breakfasts can simply look up their neighborhood and find which type of venues are the most highly rated, inform their customers, and take pride in what their locality can offer!

This guide also shows any one looking at it a view of how diverse New York City can be. No two neighborhoods are alike in what they provide in experience. This directory can be useful even for New York natives who want to get a closer look into what each neighborhood is like! Do you want to see which neighborhood is the area of Italian Restaurants? Check out Upper East Side and Upper West Side. But, if you want to hit up a Wine Bar directly after dinner, go to Upper West Side!

For anyone looking to get a finer look into the kaleidoscopic recreational scene of Manhattan, this directory will be your bet!
